WAITING FOR WORDS, has established itself over the last decades and its last 5 albums as one of the essential groups of the alternative electronic scene.

With several hundred concerts to its credit (Belgium, UK, Germany, US, Switzerland, France, Spain, Italy...), the group has also shared the stage with artists like **OMD, And One, Trisomie 21, A Floack Of Seagulls, Onetwo, De/Vision, Psyche, The Essence...** and have built a reputation as **true LIVE performers**.

The smashing "Great New World" (<https://youtu.be/CMm7VMNJGfA>) from the previous album, "Egocracy", left no doubt as to the theme of the last tour, a critique full of irony of this digitalized society, focused on likes and selfies and our growing alienation from technology.

With this new album, carried by the singles "HEDONISM" (<https://youtu.be/dOajaEBgRSA>) and the brand new "MY DIGNITY" (<https://youtu.be/afPC8IALSFI>) the band explores a more personal theme: the DIGNITY of the human being, the citizen, the husband, the father, the worker...

From the anti Cancel Culture anthem "Take It As My Pride" to the intimate "Without A Sound", Waiting For Words nonetheless forgets its pop sensibility and offers little gems with "Hedonism" or "A Kiss Like This". that the OMD or Duran Duran would not deny.

The contribution of live electronic bass, guitars and drums highlights influences that were previously a little finer to uncover: Simple Minds, Marc Seberg, INXS or the groove of Duran Duran...

And the reviews are already unanimous:

"With "Dignity", the group shifts into high gear: powerful compositions, inhabited vocals, energetic synths, WFW achieves the feat of creating a new wave made in France as credible as it is creative and it is not within the reach of anybody. » (**Gerard BAR-DAVID, Gonzomusic**)

"'Dignity' is full of magnificent gems, which show that the group has perfectly digested its excellent influences and achieved an almost perfect synthesis. » (**Blitz!**)

“In the independent playground, the masters of the game are called Waiting For Words with the flagship title “Hedonism” taken from this 9-piece EP, an appetizer tinged with that black and white new wave that suits them so well, appetizer since the hostilities in long format will be available in January” (**L’Indepen-Dance, Radio Pulsar**)

“DIGNITY sees the band at the top of their game, offering the perfect combination of their past and their future and ticking all the boxes: writing, arrangement, production, sound, performance, emotion.” (**Reflections Of Darkness**)
